BOOK SYNOPSIS

Many women learned that in order to compete in a "man's world," they had to deny their femininity and adopt a dominating and forceful manner. And it worked... to a certain extent. Women, teens and older, definitely earned their fair share of success, but now seem to be more stressed, overwhelmed, and on edge than ever before. The problem is this behavior is destructive to their relationships.

TAMING YOUR ALPHA BITCH is the ultimate solution to this ever-increasing problem. Psychotherapist Rebecca Grado and life coach Christy Whitman's insightful book reveals principles to make the shift from being a controlling, competitive, and disruptive Alpha Bitch to being an Empowered Female sans the stress that comes when trying to override their more natural, graceful instincts.

ENLIGHTENED KID PROGRAM

The beliefs our children form – especially early in life – color their perception of themselves and the world and exert a profound influence on the people they will ultimately grow to become. The years before a child turns twelve, in particular, are a pivotal time of discovery. This is a period when kids begin to evaluate themselves in relation to others; when their sense of self is in the process of being developed and refined. There is no better time to instill within our children positive, empowering beliefs about who they are and what they are capable of achieving.

Eve MichaelsAuthor of **Dress Code: Ending Fashion Anarchy*****JJI Published Author**

Expertise: **Beauty, Makeover, Transformation, Motivational Speaker, Image**

One look at Eve Michaels and you are acutely aware that she cares about her appearance from the top of her glossy brown hair to the tip of her elegant patent leather stiletto pumps. She cares so much about appearances that she has made a lifelong career out of helping others improve theirs.

Eve's introduction to the world of beauty was born out of her early childhood years of tragedy, when her mother suffered permanent brain damage and was institutionalized for life as a result of a car accident. Eve's intention to "heal" her mother came in shades of pink and red; the hues of make-up she used to make her mother "feel pretty," and hopefully come home to stay. Realizing the impact that this had on her life led to a mission to change America's perception and reflection of beauty, both inwardly and outwardly.

Eve Michaels has spent over thirty years in the business as an internationally acclaimed "Transformational Makeover Expert" and the creator of the Fast Track To Fabulous™ program.

A nationally recognized author and motivational speaker who captivates audiences globally, Eve teaches people life changing, easy-to-follow skills that quickly transform their image and their attitude about dressing well. Eve has an engaging and relatable gift for helping her clients understand what makes them special and how to create the right image that communicates their unique abilities and talents. It is no wonder her work is often called "Makeover Magic!" Her soft voice, compelling scenarios, edgy delivery and "walk the walk" style make for an entertaining escape into a new dimension of beauty and inspiration.

Alex Detail's Revolution Darren Campo

Alex Detail has been kidnapped. Again. Ten years ago, Alex was a child genius who saved the world from The Harvesters, a mysterious alien force that attempted to extinguish Earth's sun. A decade later, The Harvesters have returned, but Alex is no longer a prodigy and unwilling to fight another war. So someone at The House of Nations had him drugged and placed on the last remaining ARRAY warship, which is under heavy attack. Unfortunately for Alex's mysterious kidnappers (and the world) he has lost the mega IQ that allowed him to win the last war. Now Alex must convince the ship's food-obsessed Captain Odessa to use his risky command program to save their ship, uncover his kidnapper's devious plot, and survive the war long enough to make it to Pluto, where, underneath the planet's frozen surface lies the only force in the universe that can stop The Harvesters.

Alex Detail's Rebellion Darren Campo

The second Harvester war has ended, but Alex has never been in greater peril. Not only is Alex being hunted by his deadly clone, the seven-year-old George Spell, he is also the target of a House of Nations plot to expose Alex's post-war experiments with The Harvesters and disgrace the genius war hero. But when George Spell's latest attempt to assassinate Alex Detail at the New York planetarium nearly kills hundreds of people, Alex escapes death only to find his would-be assassin suddenly kidnapped by the powerful mystic, Brother Lonadoon.

Now Alex must join Captain Odessa on a covert interplanetary rescue operation where they uncover clues left thousands of years ago by an ancient race desperately trying to send a message to the future. But the message might be too late, as phenomena are revealing the beginnings of an extinction level event caused by the ongoing war between Alex Detail and George Spell, one that could lead to the destruction of the entire solar system.

Disappearing Spell — Generationist Files: Book 1
Darren Campo

The most dangerous person in the world has been kidnapped. George Spell is a deadly military mastermind, government spy and skilled assassin. As the son of House Speaker Madeline Spell, he is also political royalty. George Spell is also just seven years old. How did a child become such a deadly player on the world stage?

As George finds out more about who kidnapped him and why, he begins to learn the secrets behind his existence and where he truly came from. Is George Spell the pinnacle of a worldwide conspiracy centuries in the planning, or the ultimate tool in a blood vendetta against his family?

Moral Life in a Random World

Giuseppe Notarbartolo-di-Sciara**

B E Y O N D
C O S M I C
D I C E Moral Life
in a
Random World

Jeff Schweitzer and
Giuseppe Notarbartolo-di-Sciara

Morality is our biological destiny. We each have within us the awesome power to create our own meaning in life, our own sense of purpose, our own destiny. With a natural ethic we are able to move beyond the random hand of birth to pave our own road to a better life. Whereas religion claims that happiness is found from submission to a higher power, a natural ethic defines happiness as the freedom to discover within ourselves our inherent good, and then to act on that better instinct, not because of any mandate from above or in obedience to the Bible, but because we can. With the ability to choose to be good comes the obligation to make that choice; choosing to be moral is what makes us special as individuals and as a species. With a natural ethic we free ourselves from the arbitrary and destructive constraints of divine interference to create a path toward a full life for which we ourselves are responsible.

The New Moral Code
Beyond Cosmic Dice: Moral Life in a Random World,
with a new introduction
**Jeff Schweitzer and
Giuseppe Notarbartolo-di-Sciara**

The authors provide simple and easy steps to free you from the angst of today's modern society. Learn to shed the burden of expectation created by others and pave your own road to a meaningful life of deep contentment.

We need to get out of our own way and be the most polished version of ourselves we can be. Join me in stepping it up for our country by Making Over America."

A Reflection of My Teenage Experience in an Extraordinary Life:
What I have Learned, and What I have to Share

Chelsea Krost

In *NINETEEN: A Reflection of My Teenage Experience in an Extraordinary Life: What I Have Learned, and What I Have to Share*, nineteen-year-old author, Chelsea Krost, authentically shares the simplicity and complexity of her coming of age experience.

In *NINETEEN*, she conjures the curiosity and flavor of a personal journal left open in a teenager's room. In its direct approach, *NINETEEN* reveals the key events that teenagers face at this monumental time in their lives as experienced by Chelsea Krost. While many teens are struggling with typical angst from cat fights to cliques, many others are dealing with the downside of the advanced technological world we live in. From sexting to cyber bullying, self esteem to depression; body image, mean girls and boy trouble, Chelsea sheds light on the millennial mindset and its ever changing challenges and lightning speed curve balls.

Starting with the voice of a budding adolescent, to a 16-year-old who created her own radio talk show, *Teen Talk Live*, Chelsea evolves into the voice of reason for a generation of teens and beyond. Chelsea grows up from chapter to chapter, sharing her journey in poignant and playful scenarios. *NINETEEN* takes you on a humorous and insightful trip through her teenagehood, the intense final teen year, (the inspiration behind the book's title,) and into adulthood and the shift she undergoes to embark on a life fueled by service to others throughout the world.

The Real Purpose of Parenting
The Book You Wish Your Parents Read
Dr. Philip Dembo

THE REAL PURPOSE OF PARENTING is a series of stories and life lessons from the world of a therapist, known as The Parent Coach. Very well-intentioned, well meaning parents are at the point of crisis with their kids because their own best parenting efforts are NOT producing the children they want them to be. And there, according to Dr. Phil Dembo, lies the problem.

In THE REAL PURPOSE OF PARENTING, even the best parents are capable of smothering the growth of their kid's life because the truth of who the child is, and what the child truly needs is often overlooked or ignored in the agenda that many parents lay out for their kids, often landing the family in a colossal melt down.

Dr. Dembo shows simple family "turn around" strategies that reframe the real purpose of parenting and gives each family, and child their own salvation.
